***Reasons for Allowance***

1. The following is an examiner's statement of reasons for allowance:

The prior art teaches of foldable rows of seats on aircraft comprising bottoms that are capable of folding up and down. However, the prior art fails to disclose a row/rows of foldable seats situated along a transverse isle leading to an emergency exit, where during use, when the seat bottoms are in their folded down orientation (i.e. being occupied by passengers) the transverse isle leading to an emergency exit fails to meet the regulatory minimum width requirement, however, when folded up, the seats comply with regulations. Lastly, one of ordinary skill in the art would have no motivation to situate rows of seats that fail to comply with regulations. Thus, Applicant's invention is deemed to be unobvious and novel in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
